

**HOLSTERS - XYTHOS: Handcrafted
Real Leather**

\$27.90

Handcrafted Leather Xythos Holsters

These holsters are not the kind you see on eBay, with faux leather, and cheap looking, **these holsters are all individually hand crafted using real, high-grade, soft, leather.** These holsters were made to specifically fit our 2mm Pinfire Guns USA miniature Pinfire Xythos revolvers and the original Andres & Dwvorsky 2mm Xythos revolvers. They can be used for many other style of miniature guns that are also similar in size to the Xythos revolver.

These are hand-crafted in 2 styles and made in five colors, Black, Chocolate Brown, Blue, Red, and a Beige/Tan leather. **The top of the line, soft, supple leather that has been picked to make these holsters is extra soft to allow easy holstering and unholstering of your "side arm".** There is also a small leather strap with a metal button snap at the end so you can strap your gun into the holster, keeping your Xythos safe and snug, without having to fear that it would come loose and get lost. This works great to clip on to a belt loop, or keychain with its large lobster claw clasp that allows you to clip your holstered gun to just about anything.
