This is part of Pinfire Guns USA "SPY GUNS" collection, which includes our Eagle Medallion Gun, Watch Gun, Car Remote Gun, Zippo Lighter Gun, Ring Gun, and now our James Bond Style 2mm Pinfire Pen Gun. With this OAL 5 1/4" X 1/2" working Pen, you could write a note, AND in seconds fire five 2mm pinfire caps from the pepperbox 5 shot cylinder on the end. In the photo you can see the trigger on the top side of the lighter, then the Cylinder, and the hammer opposite the trigger. The Pen Guns, by master craftsman Rosen, are a Pinfire Guns USA exclusive, and are limited to only 10 in the world. Each is 24K Gold plated, with either an embossed Eagle shield or Hermes, Messenger of the Gods on the Pen, and on the Pen's Clip is engraved "Pinfire Guns USA" and numbered 1/1 to 1/10. Each Pen has a genuine Blue Sapphire embedded in the cylinder nut that is on the end of the Pen Gun. The pepperbox is simply hand-turned to fire up to 5 blanks/caps in a row (live rounds not recommended).
