Pinfire Guns USA Polished Stainless Steel 2mm Pinfire Gun AK-47 ParaTrooper w/ EXTRA Magazine

Handmade by master craftsman Rosen, a tribute in miniature of the uber-cool **AK-47 ParaTrooper**, this listing is for the versions we had a rare, Limited Edition, and Numbered Set of these miniature pinfire rifles made exclusively for Pinfire Guns USA - Polished Stainless Steel bodies with **Bone**, or a **Mediterranean Mother-of-Pearl SOLD grips!** The real life version of these guns were originally designed and developed for the Hungarian Defence Forces back in 1977, They actually replaced the AK-65, which was designed in 1965, but they really made their combat debut during the Iraq-Iran war during 1980-1988. Overall length (OAL) of just **4.7 inches**. With a **loadable and removable magazine**, this **single shot** can accommodate **blanks and live rounds***: both the flat-top (sold premade) and lead-ball (must purchase blanks to hand-load balls individually). Each **ONE** of these comes with **TWO MAGAZINES** for quick and easy reloading. The highly engraved steel stock easily folds underneath to make the gun only 3 1/3 inch OAL (over-all length) (85.75mm) long, and when it opens, it is a full 5 inches OAL (Over-all length) (128.00mm) long. Each rifle is stamped on the top of the gun, at the barrel, as well as on each of the magazines. The extensive hand engraving along the folding stock, gas tube, and magazine, shows just how much skill and talent that goes into every Rosen gun, and how his eye for the details can make a gun really stand out in a collection. Weather you want the rifle to shoot, display, or both, this gun could be the polished gem of any collection. These are really selling VERY fast, as we only have 3 left in stock, all 3 have the Bone grips.

We have Sold the MOP gun.

**PLEASE- Leave a note in your order to let us know which stock you want MOP or Bone.
