PRE-ORDER OUR

NEWEST 2mm Pinfire Guns USA 8 Shot Tommy Gun

You NOW will get this with it's own personal miniature, red velvet lined, violin case for this masterpiece. We used to send these out in our small Black Pelican Style cases, but not anymore! Now, we have found the perfect carrying case for this symbol of the Mob in the 1940's and 1950's. This is a Pre-Order, and we do not expect these to be around very long, and expect these to sell out in just a few months. We have had the first 5 finished and they look, and work amazing! Normally, we get them in about 2-3 weeks after the order has been placed, but recently they have been arriving as fast as 1 week. These come to us in stainless steel, then we finish them to your requested finish of either the simple polished stainless steel, at no additional charge, or for a small fee, we can have it blued, using the same bluing process they use on actual firearms, or for a bit more, you can go all out, and we can add an industrial, high thickness, 24K gold plated finish, as shown in the additional photos.
